LOCAL RESIDENTS HONOURED.

GOVERNMENT HOUSE CEREMONY.

TRIBUTES TO RECIPIENTS OF DECORATIONS.

FOUR INVESTITURES.

Labour in the interests of public and social service was fittingly recognised at Government House this morning, when four prominent local residents were invested with King's Birthday Honours, by His Excellency the Governor (Sir William Peel, K.B.E., C.M.G.).

The recipients were Mr. D. W. Trautman, who was decorated with the C.M.G.; Mr. R. M. Dyer, who received the insignia of a Commander of the British Empire; Mrs. Lily Morris, who was honoured as a Member of the British Empire; and Lieut. W. R. Stevens, who was invested with the insignia of the M.B.E. (military).

The ceremony was enacted in the reception room at Government House, with the usual form of procedure adopted.

A little before 11 o'clock, His Excellency entered the room, preceded by two Indian A.D.C.s, and accompanied by Capt. T.A.H. Colman (A.D.C.) and Mr. G. W. Tuffey (Private Secretary) bearing the insignia.

The Investitures.

Immediately afterwards the recipients of the honours, together with their supporters, approached the dais, and were invested with the decorations.

Mr. D. W. Trautman was accompanied by the Hon. Mr. E. R. Halliwell (Acting Colonial Secretary) and Mr. R. H. Kotewall; Mr. R. M. Dyer was supported by the Hon. Mr. T. H. Creasy (Director of Public Works) and Rear-Admiral R.A.S. Hill; Mrs. Lily Morris was sponsored by Mr. G. P. de Martin and Mr. Ho Kom-tong; and Lieut. Stevens by Lieut. R.N. Thicknesse and Lieut. L. N. Evans of the 1st. Batt. Somerset Light Infantry.

After performing the investiture, His Excellency briefly addressed each recipient. The band of the Somerset Light Infantry then played the National Anthem, and terminated the function.

Mr. Trautman's Services.

Addressing Mr. Trautman, His Excellency said that it gave him great pleasure to invest him with the insignia, and his pleasure was greatly enhanced by the fact that for many years they had been members of sister branches of the Eastern Cadet Service. Mr. Trautman was appointed Cadet at the end of 1904, and had served in the Colony ever since.

He had performed duties in his various appointments in Hongkong and in the New Territories, including that of Head of the Sanitary Department. The manner in which he had performed his duties as Acting Secretary for Chinese Affairs during the strike and boycott of 1925, earned for him the appreciation and esteem of not only the European and the Chinese residents of Hongkong, but the special commendation of Sir R. E. Stubbs, then Governor of Hongkong.

The appointments he had held since 1925 included that of Principal Assistant Colonial Secretary, and as (the Governor) personally had formed high opinions of his work, and would like to thank him for all the help he had given him. Through his great ability and devotion to duty, he fully deserved the honour which had been conferred upon him, and he tendered him his sincere congratulations and thanks.

Tribute to Mr. Dyer.

To Mr. R. M. Dyer, His Excellency said that he was the manager of a large shipbuilding and dock company, with which he had been connected for over 20 years. As such, he was a distinguished figure in the business life of the Colony, for during the time he had been manager, 220 ships had been built, whilst the average number of ships taken into the dockyard during the last few years had been 300 annually.

Mr. Dyer had always been ready to give advice and assistance (on Page 12.)

REPUBLICANISM IN SPAIN.

A BIG MEETING IN MADRID ISSUES CHALLENGE.

CORRUPT DYNASTY.

Madrid, Sept. 28. Twenty thousand Republicans from all over the country, who filled the bull ring, have thrown down the gauntlet to the Monarchy. The meeting was entirely revolutionary, but moderate in language.

The former Liberal Minister, Senor Alcalá Zamora, declared that the King must abdicate, but urged the Republicans to eschew rioting. Others, including the octogenarian Dr. Cardeza, a life-long Republican, dilated on "the abuses of personal power under a corrupt dynasty."

This was the first open expression of collective Republican opinion since the coup d'état of 1923. Complete order was maintained. There was an enormous display of force at all strategic points. Although the censorship in Spain has been abolished, the law forbids attacks against the King, and many are now asking how these outspoken centers are going to fare.—*Reuter.*

Some indication of how affairs are shaping was given in the following despatch from Madrid dated September 22:

In the midst of the heated political campaign incident to the forthcoming parliamentary election, the first since the de Rivera dictatorship, the Spanish Government was faced to-day with a Cabinet crisis.

The Duke of Alba, Minister of State, said that he was determined to resign as a consequence of the editorial campaign waged against him by the newspaper *El Debate*. The paper has been attacking him for numerous trips abroad.

The Duke is due to arrive at San Sebastian to-morrow and it is expected that King Alfonso will need much persuasion to keep the Duke in the Benicazul Cabinet. According to some reports, the Duke has already resigned.

LENOX SIMPSON'S SUCCESSOR.

MUKDEN SELECTION AGREED TO.

MR. HAN LIN-SUN GIVEN THE POSITION.

TROOP MOVEMENTS.

Peking, Sept. 28.

General Chang Hsueh-liang's flat refusal to permit Mr. Lenox Simpson to continue at the Tientsin Chinese Maritime Customs resulted in the departure of the latter from Mukden yesterday. He made a hasty journey back to Tientsin.

Official circles have confirmed the reports that the Nanking Government has agreed to allow General Chang Hsueh-liang to have his own way in the appointment of a new Superintendent for the Tientsin Customs in place of Mr. Simpson. General Chang Hsueh-liang's choice has fallen on Mr. Han Lin-sun, and it is understood that the Nanking Government has signified its consent to the appointment.

Troop Activity.

The Manchurian commanders are stationing strong contingents along the Tientsin-Pukow and Peking-Hankow Railways. Along the former line, the Manchurian forces have occupied Tsangchow, while along the Peking-Hankow Railway they have entered Pao-tungfu.

Considerable troop movements took place at Peking during the week-end, which witnessed the arrival of some Manchurian contingents from Tongshan for Gaihi districts.

Peking Preparations.

General Yu Hsueh-zhang, commander of the Manchurian expedition, visited the Chinese banks and Government offices here during the week-end and conferred with the leaders in Peking regarding the financial rehabilitation after the withdrawal of the Shantung troops.

Many parts of Peking were patrolled by strong contingents of soldiers and communications were interrupted during the visit of the Manchurian commander. Conditions here continue to be peaceful and the populace seem to be glad of the restoration of the conditions of 1926 when the Manchurian Government ruled with the late father of General Chang Hsueh-liang as the Peking Dictator.

General Chang Hsueh-liang will shortly be visiting Peking and it is possible he will confer with Marshal Chiang Kai-shek in Nanking.

War Situation.

Apart from an announcement by the Nanking Government to continue with the war, conditions along the railways continue to be tranquil. Apparently both sides are consolidating their positions before launching further attacks.

Minor military operations are taking place at Lanfeng, along the Lung-Hai Railway, but the Nationalist forces are apparently waiting for further developments in North China before striking again.

Meanwhile Marshal Chiang Kai-shek is spending his time between Kwei-chow and Hsuehchow supervising the reconstruction of some of the Nationalist fortifications.

China and Soviet.

Shanghai, Sept. 28.

The announcement that China has decided to submit to the Soviet demand to discuss the whole question of trade and diplomatic relations has caused much speculation here. The Nanking Government has steadily resisted any such question since the two nations broke off diplomatic relations last year. Some persons interpret this action of Nanking as the direct result of China's rebuff at Geneva last week, when a seat was denied to the nation on the Council of the League Assembly.

Other circles see a close connexion between this latest move and the military action of Chang Hsueh-liang. They infer a deal which brought the young Man-

EMPIRE TRADE PROPOSALS.

TARIFF PREFERENCE SYSTEM ADVOCATED.

LATEST SUGGESTION.

London, Sept. 28.

A series of recommendations on the subject of Imperial rationalisation is advanced in a preliminary general report which has been issued by the Research Committee of the Empire Economic Union and circulated among Dominion delegates to the Imperial Conference. Lord Melchett is the Chairman of the Union, and the Research Committee is under the chairmanship of Mr. L. M. S. Amery who was Secretary for the Colonies in the Conservative Government.

The report sets out its case for special stimulation of inter-Imperial trade and gives in appendixes draft heads of suggested trade agreements between the United Kingdom and the Dominions and India. A general system of tariff preference is recommended as a means for achieving the purpose it has in view, the report declaring that this involves a minimum of international complication, because every nation accepts without challenge the principle that every other nation is entitled to impose Customs duties and to treat preferentially their own Colonies and dependencies.—*British Wireless.*

WORLD'S PEACE PROSPECTS.

HOW THE LEAGUE IS FUNCTIONING.

PREPARATIONS FOR COMING DISARMAMENT.

TARIFF TRUCE ISSUE.

London, Sept. 28.

Mr. Arthur Henderson, the Foreign Secretary, who returned to London from Geneva yesterday, said the meeting of the League Assembly had been interesting and useful, if perhaps less spectacular than last year.

Referring to the discussion of amendments to the Covenant to bring it into line with the Kellogg Pact, thus rendering private war as impossible under it as it already is under the pact, he said he hoped they might be adapted by the League of Nations before the present meeting breaks up.

Last year, Britain announced her intention of ratifying the optional clause under which all international disputes of a justifiable nature have to be sent to arbitration. Since then, Britain had ratified the clause, and many other countries had done the same, and he had left Geneva confident that it will soon be of universal application.

International Peace.

"This, together with the effective entry into force of the general act of arbitration which I hope is not far distant, will usefully increase the scope of international arbitration, and will go a long way towards setting up a practicable plan for the disposal of every form of international dispute by the same method of law and justice as the general relations of individuals in any civilised state. Measures such as these, together with projects like the treaty to provide financial assistance to States which are unjustly attacked, which we have also been discussing and which will almost certainly be adopted by the League during this assembly, are of course intimately bound up with—they are in fact preparations for—the work of disarmament."

"This will be taken up in Geneva in a few weeks' time by the committee which is preparing for a general disarmament conference that we all hope will be held before very long."

A Tariff Truce.

After referring to M. Briand's project for a European union, and the steps taken by the Assembly regarding it, he said that with it goes the proposal for a tariff truce in Europe, to be followed by negotiations with a view to reducing Customs tariffs and dealing with other economic questions of common concern.

"These are proposals to which Mr. Graham has devoted so much time during the past year, and if effect can be given to his hopes I do not doubt that they will prove a valuable means for assisting the League in producing that feeling of stability and security which must so much facilitate an agreement upon disarmament. Representatives of the European nations have, on the suggestion of M. Briand, instructed Sir Eric Drummond in preparing an agenda for the next meeting of European Powers at Geneva, in January, to take due note of the results of the conference which is to be held in Geneva in November, in pursuance of the plan initiated by Mr. Graham to give further consideration to the European tariff problem. This is particularly encouraging."—*British Wireless.*

William Garcia, a Filipino, one of the entertainers at the New World, is dead as the result of a fight which ended in a stabbing affair at 4.15 a.m. yesterday, at the corner of Range Road and North Szechuen Road. A companion, named Tex La Frank, was slightly wounded.

It appears that on Saturday night Garcia went to a cabaret in North Szechuen Road, and some ill-feeling was aroused in the dance hall. On the closure of the cabaret, Garcia and La Frank took rickshas at the corner of North Szechuen and Range Roads, and were about to proceed homewards when a gang of seven or eight rowdies came up and attacked Garcia.

A "free for all" fight ensued, during which knives were brought into play. Garcia and La Frank eventually collapsed on the pavement, and were left there by the gang.

The police arrived, and took Garcia to the General Hospital, where he died within a few minutes, having been stabbed in the back.—*Our Own Correspondent.*

Berlin, Sept. 28.

The death is announced of Field Marshal Prince Leopold of Bavaria, at the age of 84. He was the chief commander of the German army in the East early in the war, and played an important part in the German victories in Russia and Poland.—*Reuter.*

The famous German Royal soldier, Prince Leopold of Bavaria, was born in 1846. He was a son of the Regent of Bavaria. He first saw service in 1866, and then in the war with France in 1870-71. In this latter campaign he was specially prominent, and was promoted to the Military Max-Josef Order for bravery. He eventually rose, by the end of the war, to the rank of Lieutenant Colonel.

Later, he became commander of the Bavarian First Army Corps, and in 1905 was appointed a Field Marshal.

The Great War gave him his opportunity to shine in big campaigning, and as commander of a German army on the Eastern front in 1915 he captured Warsaw. Afterwards he replaced Hindenburg in the Eastern command.

Prince Leopold married a daughter of the late Emperor Franz Joseph of Austria, and had four children. His eldest, Prince George of Bavaria, served in the war, and later became a priest.

Mr. Daniel Guggenheim.

New York, Sept. 27. The death has occurred of Mr. Daniel Guggenheim, of the firm of Guggenheim Brothers.—*Reuter's American Service.*

The late Mr. Daniel Guggenheim was a noted member of a noted family, whose name is a household word in realms of finance. Born in Philadelphia in 1856, he was of Swiss extraction, and one of seven sons, most of whom became noted. At the age of seventeen he returned to his father's native land, and there managed the European interests of the firm of Guggenheim, started by his parent, with conspicuous success. Going back to America some years later he joined the extended enterprises of the firm, which ranged from lace and embroidery to copper mining, and the New York business was opened in 1899, soon to become a big factor in Wall Street.

From mining in South America, Daniel Guggenheim's interest was attracted to the Chilean nitrate industry, and he helped to build up the family's process of treatment of nitrate which stands until today as probably the most perfect in the industry. From copper and nitrate, the concern turned its attention also to tin in Bolivia, and eventually the huge business of the Chile Copper Company of some \$250,000,000 in assets, was built up. To-day the Guggenheim interests are paramount in the copper market.

Wide Interests.

Other connexions taken up were the Utah Copper Company, and interests in Alaska, Mexico, Asia and Africa.

Mr. Daniel Guggenheim married Miss Florence Schlosser, and with her was instrumental in giving a big charitable foundation for the purpose of "promoting the well-being of mankind." This is known as the Daniel and Florence Guggenheim Foundation, and was established at New York in 1924. One of the sons of the marriage is Lieut. Colonel M. R. Guggenheim, of the U. S. Army.

THEATRES' GOOD YEAR.

HONGKONG AMUSEMENTS
CHANGE IN POLICY.

CAPITAL INCREASED.

A change of policy through the purchase of various properties for the erection of their own theatres, which the Directorate regarded as not only desirable, but wise, was reported at the annual meeting of shareholders of the Hongkong Amusements, Ltd., held on Saturday in the Queen's Theatre.

A successful year was commented upon by the Chairman (Mr. J. M. Noronha), who later presided at an extraordinary general meeting for the purpose of passing resolutions authorising an increase in the capital of the Company to \$1,000,000.

Addressing the meeting, the Chairman said: "Gentlemen, — Owing to the absence of your Chairman, Mr. Backhouse, who had to leave for Home in April last, I am privileged to address you to-day. The Report and Statement of Accounts, together with the Auditors' Report, having been in your hands for a clear week, I will follow the usual custom and take them as read."

Before proposing the adoption of these accounts I would like to state that the seeming delay in calling this meeting was due to the sudden introduction of "talkies" in all the principal theatres comprised in our circuit. This innovation has, naturally, brought in its train a complete change in the system of working, and as this change happened to coincide with the last months of our financial year, some delay was experienced in reconciling the accounts from several of these theatres, necessitating exchange of correspondence extending over a few weeks.

The year under review, viz., 1929-1930, registered a change in our own theatres, a change which, in the opinion of the Board, is not only desirable but wise.

New Properties.

As indicated in the Balance Sheet, we acquired the following three properties:

1. Kowloon Inland Lot No. 2205, containing an area of 18,110 square feet;
2. A lot on Avenida Almeida Ribeiro, Macao, containing an area of 1,252 square metres or about 12,520 square feet;

3. A lot at Swatow containing an area of 5,800 square feet. These are all very valuable sites, centrally situated and admirably suited for our purposes and your Directors have every confidence in their successful development.

Our profit for this year, after providing for the usual depreciation, amounts to \$116,331.61, which, with the amount brought forward from the previous year, amounts to \$163,447.52, which is slightly more than the previous year. The "Legal" Reserve of 5 per cent is being appropriated as usual and we recommend to place \$50,000 to General Reserve. The Bonus to Staff is the same amount as for the previous year and is to be distributed by the Managing Director according to his apportionment, and I am quite sure you will agree that they have deserved this appreciation of their services.

It is also proposed to declare a dividend of \$2 per share on preferred ordinary shares, which means \$1 per share on deferred ordinary shares according to the Articles of Association, plus a bonus on all shares of 50 cents which amounts to a return of 25 per cent on the preferred ordinary shares. This now leaves a balance of \$48,630.94 to be carried forward to the credit of the next account, approximately \$1,500, more than the previous figure. This makes the fourth year in succession that your Company has paid a dividend of 20 per cent, not taking into account the Bonus, and your Directors feel confident that this satisfactory result will continue to be maintained.

New Films Charges.

Turning now to the Balance Sheet you will notice in the various

Reserves an amount of \$164,500.38. Sundry Creditors amount to \$363,285.51 and these practically all represent accounts for films. The chief item in the assets to bring before your notice is the figure for Films and Film Rights. This amount has been considerably increased on account of the increased cost of sound and talking pictures.

Your Chairman hinted in his speech last year that our business has grown out of proportion with the original capital investment and that it was likely that time would necessitate calling upon you for an increase of capital. You are aware by now that this has come to pass and the matter will be brought up at an Extraordinary General Meeting which will immediately follow our present meeting.

With these remarks, Gentlemen, I beg to propose that the Directors' Report and Statement of Accounts for the 12 months ended March 31st, 1930 be adopted and after this has been duly seconded, I shall be glad to answer, to the best of my ability, any questions shareholders might wish to put.

Mr. Ho Ki seconded the resolution, the report being carried unanimously.

Messrs. J. H. Backhouse and Lee Lu-cheung were re-elected to the Board of Directors, on the proposition of Mr. J. S. Gubbay, seconded by Mr. Ho Leung-ho.

Messrs. Linstead and Davis were re-appointed auditors, on the motion of Mr. V. L. Remedios, seconded by Mr. Poon.

Capital Increase.

The extraordinary general meeting followed immediately, when the Chairman addressed the shareholders as follows:

Gentlemen,—As you are all aware, this Extraordinary General Meeting is being convened for the purpose of increasing the Capital of this Company to \$1,000,000.

Those of you who have watched the growth and progress of this Company can readily see that the business has grown out of proportion with the original capital investment. And this fact, coupled with the proposed acquisition of the Queen's Theatre, has, after very careful and prolonged consideration, prompted your Directors to bring up the proposals that are now being put before you.

To achieve this end, certain legal procedures are required and these have been thoroughly embodied in the notice convening this meeting which has just been read to you by the Secretary.

I might here explain that, in reality, there are only two classes of shares at present namely, deferred ordinary shares and preferred ordinary shares. In the notice and circulars that have been sent out you will have noticed that the existing shares have been designated into three classes. This has been necessary on account of the wording of the Company's Memorandum of Association in that 8,000 ordinary shares of \$10 each may be issued under such conditions as may be decided by the Company and these were actually issued with the same preferential rights as the preferred ordinary shares, thus making them one and the same class.

Requirements.

Briefly, it is required to alter the Memorandum and Articles of the Company and to, firstly, reduce the present capital by the cancellation of the deferred ordinary shares, then to extinguish the preferential rights attached to the preferred ordinary shares and the ordinary shares issued with preferential rights and then, to increase the capital by \$80,000 to provide 8,000 ordinary shares of \$10 each to be issued to the deferred shareholders in substitution for the deferred ordinary shares.

The holders of the deferred ordinary shares will not be required to pay up the additional \$5 per share, as the requisite sum of \$5 per share (totaling \$40,000) will be transferred from our Reserve Fund and capitalised in order to make the new shares fully paid. This bonus of \$5 per share included in the exchange of one ordinary share of \$10 fully paid for each deferred ordinary

share is in the nature of compensation to the holders of the deferred ordinary shares for relinquishing their benefits under Article 167 of the Articles of Association.

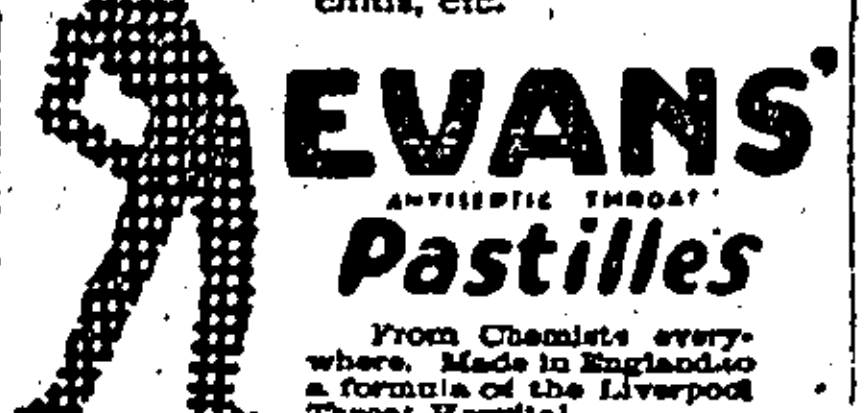

The next step is to increase the capital of the Company to \$1,000,000 by the creation of 84,000 additional ordinary shares of 10 each (this includes the 8,000 shares to be issued to the holders of deferred ordinary shares as above mentioned) of which 24,000 will be offered to shareholders at a premium of \$2.50 per share, 26,000 will be offered to the public at a premium of \$10 per share and the remaining 26,000 will be subsequently offered at a minimum premium of \$10 per share at such times and on such conditions as the Directors may think fit.

Flying Tokyo seems to be the major transoceanic flight this year. And among those planning this dangerous hop is Gerald Smith, with Jack Allen as co-pilot. Smith is at Seattle, and his plans call for a hop from there to the Japanese capital with the \$25,000 purse Seattle offers for a Seattle-Tokyo flight as one of his lures. He plans to use the above single-motored all-metal monoplane. Inset, Gerald Allen, pilot.

Firefighters turned loose this soaring Niagara of water on the grain elevator of the Western Maryland Railway, at Baltimore, after a series of five mysterious explosions had virtually wrecked the twelve-story structure.

"The happiest girl in all Australia" was Mary Powell, pretty fiancée of Maj. Charles Kingsford-Smith, when news of his successful trans-Atlantic flight reached her home in Melbourne. But she has won the daring birdman's promise that his Ireland-to-America flight will be his last trans-oceanic air voyage.

Christina Bauer thought it would be fun to hook a salmon while trolling in Puget sound—but she hadn't figured on this 38-pounder.

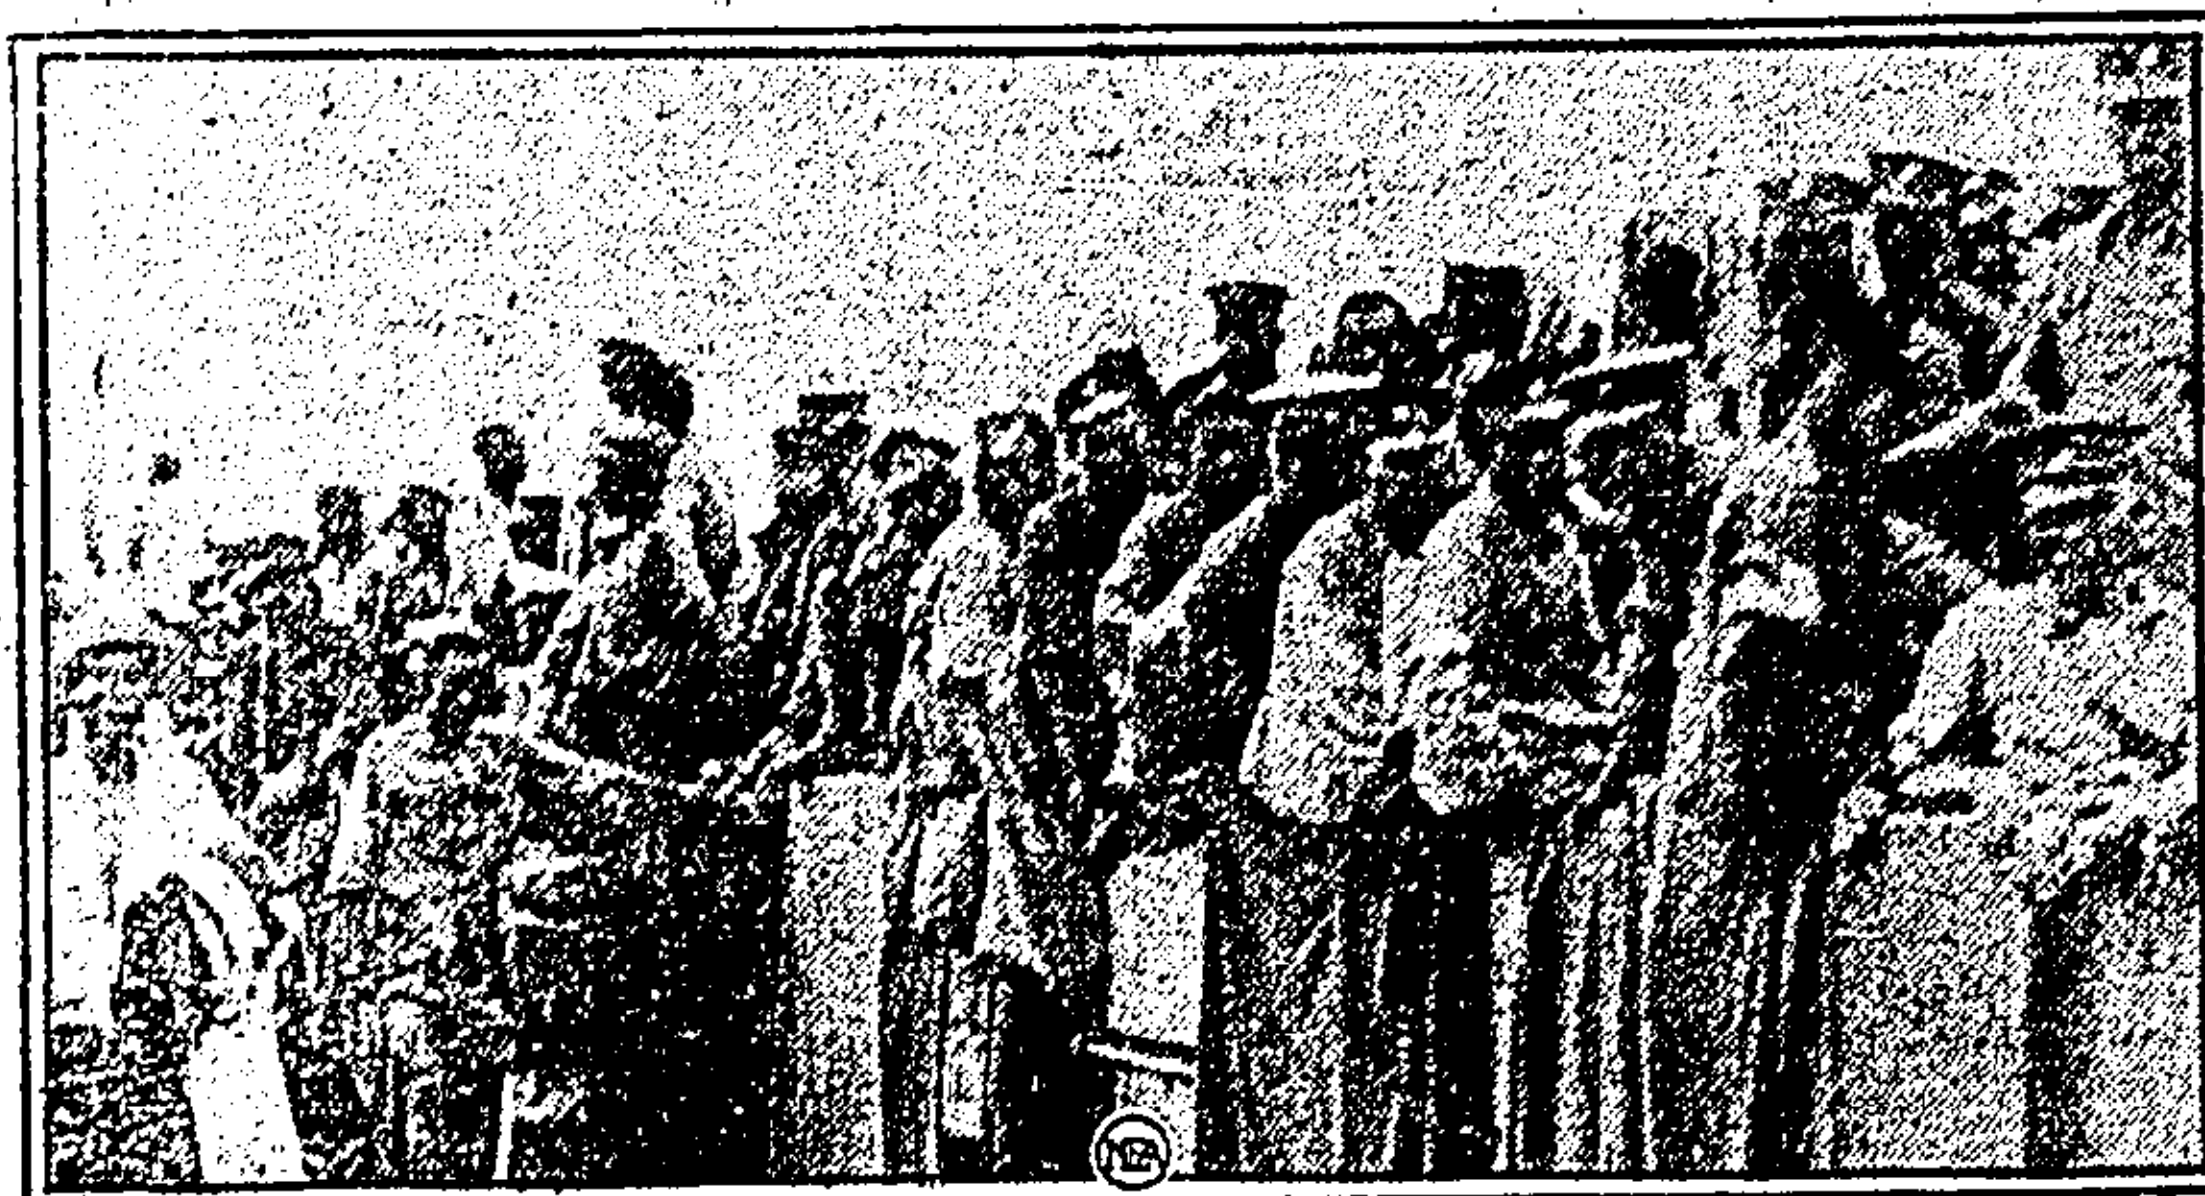

Two girls can be danced with as easily as one in the new dance called the Trio, shown above. Dorothy, Oscar and Mildred Duryea (left to right) demonstrated the steps at the annual convention of the Dancing Masters of America.

Maria Guglielmi Sicra and Alberto Guglielmi Valentini, sister and brother of the late Rudolph Valentino, shown here, have prepared for a final court battle to settle the screen idol's estate which they alleged George Ulman, recently resigned as executor, mismanaged.

These two fair pilots—Loma Worth, above, of Los Angeles, and Margery Doig, of Danbury, Conn. were among the entrants in the National Women's Air Derby, a race against time from Long Beach to Chicago.

Above are seen some of the defenders of Nanking, when the Nationalists capital appeared to be menaced by Communist armies. They are troops of General Chiang Kai-Shek. General Chiang, veteran commander of the forces of the Central government, is pictured at the right, during his sanguine campaign in the Honan province. Since then, the Northern forces have been subdued, for the time being,

at any rate.

OBVIOUSLY, with Autumn in the air, pyjamas are due for reconsideration. The light cotton of Summer gives way to the little heavier poplin or light weight taffeta and wool.

This season, pyjamas are more colourful. What a chance to indulge in a little brightness—give rein to fancy—just as we, on our part, have been fancy free on your behalf in the matter of colour variety and fine fabrics.

LOCAL BUILDING REFORM.

The reference to an amendment of the Public Health and Building Ordinance of 1903, in the *Government Gazette* of Saturday, served as a reminder that no adequate provision exists for the compulsory installation of fire-proof stairways in Chinese tenement houses. This must be something of a shock to those who recall the arguments brought forward at the time of the enquiry which followed the King Edward Hotel fire, when there was much reference in the newspapers to the absolutely disgraceful "fire traps" which exist in the congested quarters of the city—old tenement houses, many of them as high as four storeys, where the only means of exit in time of need is a single, narrow and usually very steep wooden staircase. There have been several fires in the Chinese quarter during the past two years, in some of which fatalities occurred, when this type of combustible stair was again in the limelight. The hope was expressed on every occasion that the authorities would at last see their way to abolishing a blot on the building regulations of the Colony. Now, after an unexplained delay, provision is to be made for fire-proof stairways in the case of all new tenement houses of any height, while other accessory safeguards are also provided, such as provision against too steep a rise in the flight. This has come none too soon. If report be correct, some buildings, intended for tenement use, have been completed within recent months that have the old type of stairs, constructed of inflammable materials. Such, if report be correct, should never have been allowed.

On the whole, Hongkong may congratulate itself that officialdom has thoroughly awakened to the need for adequate safeguards against fatalities in fires. Only a few years ago, despite previous recommendations by juries and comments in the press, the city possessed a number of buildings in which such safeguards were inadequate or almost entirely lacking. It required the two big hotel fires, the last one accompanied by most distressing casualties,

to stress the need for thorough overhaul of the system of building permits. Much has been done of late in the majority of the higher buildings, which were formerly ill-served in the matter of fire precautions, to improve matters. Owners have mostly acted voluntarily, while seemingly a tightening-up of the official rules has occurred, and where glaringly inefficient means of escape were found pressure has been brought to bear. It is certain that no big building will go up in future that is not thoroughly up-to-date in the way of iron ladders, concrete emergency stairs, and so forth. It is the meaner type of construction that remained, up to quite recently, liable to escape proper provision. The proposed amendments to the Ordinance should do away with that omission.

Naturally, new regulations cannot alter the older type of building which exists in big blocks covering wide areas of the slum quarters on both sides of the harbour, as exemplified in Wanchai, West Point and Yaumati. Nothing short of a huge blaze could render these areas open to rebuilding operations; and a conflagration of that magnitude is one we must hope will never occur, for the loss of life would probably be appalling. Gradual demolitions and rebuilding, in which not only the fire-trap menace, but also the paucity of light and ventilation will be things of the past, are all the Colony can look to. It will take at least another generation to witness these changes, and possibly two generations to see the actual passing of the last of the old tenements in which, even though no fire occurs, the inhabitants are still menaced by disease, particularly tuberculosis. Overcrowding of a kind will perhaps persist, owing to the economic conditions prevailing. This does not mean, however, that better conditions, with more air to breathe and more germ-killing sunlight available, will not come in time. Every alteration of existing regulations, wherever they are proved inadequate, is therefore to be welcomed, as presaging the long overdue provision of better housing conditions for the masses.

Cruelty to Pigs.

We note with satisfaction a very necessary strengthening of the regulations designed to prevent undue cruelty to pigs whilst in transit from or to the Colony aboard ship. The previous requirements have been considerably amplified, whilst at the same time the rules have been made much clearer. In future, no head-to-tail stacking will be permitted, and very necessary provisions have been made to cope with possible injury to the animals through ships rolling in rough weather. We observe that whilst it is laid down that an alley-way shall be left to allow food and water to be given, there is nothing in the regulations which actually require these necessities to be provided; the presumption, however, is that food and water must be periodically supplied. In the former regulation, the nature of the crates was indicated and the provision of matting was made obligatory if bamboo crates were used. For some reason, these two points are not covered in the new rules. Nevertheless, the amended regulations are a vast improvement on the old, and their enforcement should make impossible much of the terrible cruelty often inflicted on pigs during sea voyages. On the general question of crates used to carry pigs on shore, whilst the lining of the bottom of these with matting prevents much suffering, we cannot help thinking that they are ill-adapted for the purpose. Pigs are usually literally forced into these contraptions, and are often badly cut in the process. The Homestead method of using net slings strikes us as being in every respect better than the local custom of employing bamboo or rattan crates for the purpose.

In an attempt to commit suicide, a Chinese woman named Ng So, 42 years of age, residing at 222, Hollywood Road, jumped into the harbour yesterday from the Shamshui Ferry Wharf but was rescued by a wharf coolie named Mak Fat.

SOME PEOPLE CULTIVATE A SIMPLE MANNER. IT IS A USEFUL THING TO CULTIVATE, WHEN ONE WISHES TO THROW DUST IN OTHER PEOPLE'S EYES.—Richard Bagot.

The P. & O. s.s. Kashmir from Hongkong arrived at Marseilles 27th September at 10.30 a.m.

The forthcoming wedding is announced of Mr. Frederick Stanley Winfield Smith, No. 26, Ashley Road, Kowloon, to Miss Elsie Naomi Earl, No. 72, Marsala Road, Lewisham, London who is travelling to Hongkong on board the s.s. Terukuni Maru.

A report has been made to the Police by Lam Yuk-hing, steward of the s.s. Haining, who resides at 245, Gough Street, alleging that his concubine named Cheung Ching (22) absconded from his house on Tuesday last, taking with her jewellery to the value of \$135.

Missing his footing whilst cleaning his house from a ladder, a Chinese named Chiu Kam-tung, 19 years of age, of 236, Des Voeux Road, Central, received injuries to his head, necessitating his removal to the Government Civil Hospital for treatment. His condition is not serious.

The body of Tsang San, a coolie, of 19 Taku Street, was removed to the Kowloon Mortuary yesterday, following a fatal accident on board the s.s. Mausang on which the deceased had been employed as a paint-scraper. His body was found in the coal bunker of the ship, he having apparently fallen from the hatch.

An allegation of assault against a workman of the General Electric Company has been brought by a store coolie of the company, who has informed the Police that one Chan Kam struck him in the lower part of his body. He was taken to the Government Civil Hospital, while the alleged assailant was taken into custody.

A reminder is published in this issue by the China Light & Power Co. (1918) Ltd., that the call of \$1 per share on the 1930-issue shares is payable to the Company's bankers, the Hongkong & Shanghai Banking Corporation, Hongkong, on Wednesday, October 1, 1930. Interest at the rate of 12% per annum will be charged on all calls unpaid at that date.

Passengers arriving here from Manila by the s.s. President Taft included the Misses Alice and Cynthia Davis, daughters of Governor-General Davis of the Philippines. The former is proceeding to France, via the States, to join her mother, whilst Miss Cynthia Davis is proceeding to Shanghai. They are accompanied by Mrs. M. Murray, wife of the technical advisor of the Governor-General.

Westernising Japan.

JUST as the Kulaks and others make their way into China from the Siberian side, so disgruntled Koreans cross its borders from the other to escape the rule of Japan (says Max Murray in the *Daily News and Chronicle*). About a million people have left Korea and have established themselves in colonies in the cities and villages of the North, and as the Russian influence follows the Kulaks, so Japanese authority follows the Koreans.

There are to be found little Japanese administrative outposts wherever there are Koreans. The feeling in China against these Japanese police forces is very high, but when there is trouble it is generally found to have been made by the Koreans; sometimes, it is said, incited by the Chinese. And, of necessity, the Japanese forces are strengthened to maintain order amongst the Koreans.

As a measure against what is called this penetration into China of Japanese authority, the Chinese now demand that every Korean become a naturalised Chinese citizen, immediately he enters China.

When Japan conquered Korea she must surely have added the most beautiful fragment of Asia to her empire. To fall asleep in North China and to wake in Korea is to feel that you have come in a dream to a fairyland. It is bathed in the soft spring sunlight; towering green mountains are draped with wisps of cloud, and towering as they are they appear unreal because they float reflected in the rice fields. And the water that reflects them is not always visible beneath the green on the fields, but only the reflections.

It is a place of apparent perfection; the tiny houses blend into the landscape, and the humblest of the people are dressed in spotless white clothes. The perfection here is of the methods and manner of a thousand years ago. A coolie in a loin cloth wades through the water behind a single contented ox, that hauls his wooden plough.

Three Men, One Spade.

Three men work here with one spade. One control the handle and two haul on a rope that is passed under it near the blade. They use it in the manner of a scoop and chant as they swing back and forth. Nearly everything about these fields seems to be transported on human backs. But the load is carried on a tripod, so that the bearer, when he decides to rest, need not set his load on the ground, but only walk from under it. What could have caused a million Koreans to leave this paradise for China?

And now, here in Kobe, a modern city in Japan, I have just witnessed the annual dinner of the Japanese Rotarians. Here was a leap into the Westernised Japan! Even now there is an American guest of honour making a speech that can be heard in the banquet room, the lounge, and most of the bedrooms of this hotel, punctuated by bursts of applause in the Western manner.

I believe that in Japan there must be more nonsense spoken about International ideals than in any country in the world.

Every boat seems to bring in a number of people with something they want to say to the people of Japan. If they have ambassadorial material protruding from one pocket everybody knows that they have business propositions buttoned up in the other. And not a soul believes a word of it, although nothing in the world could look more hearty and frank.

I went to a meeting of Parliament. It was conducted quite in the Western manner. One member called another member a viper. And one accused another of using police pressure on voters at the last election. And yet another got up to make a speech, but he was very drunk, and was ordered to sit down again. I know that the Japanese will not mind my writing these things because they are written simply to demonstrate how they are becoming just like us.

Women's Subserviency.

Women are about to be given their first voting rights. They are to start with the municipal elections. I went to an open air meeting of women to discuss the question. The meeting began at noon and ended at six. But in spite of the vote that is to be given them the condition of the women in Japan has not greatly changed. There are points at which the Westernising movement comes to a dead stop. The younger wife is still an underling in the house of her mother-in-law. A girl who goes to work knows that in doing so she has ruined the chances she had of making a good marriage. A state of slavery still exists in the licensed houses. Publicly this is deplored nearly every day, but no change is made.

The Westernisation as far as it has gone is not unlike one of the paper-and-wood houses here, set on the foundations of Feudalism and Ancestorworship. When a shot was fired at the Emperor's car the last Government immediately resigned. When the tyre of a royal car blew out the chauffeur committed suicide. When the cogey wheel of a train carrying a member of the Royal Family came off, the whole train crew committed suicide.

ASSAULT ON A BUS CONDUCTOR.

THREE CHINESE FINED BY KOWLOON MAGISTRATE.

Three Chinese, a man named Ng (unemployed) and two pork stall fobis, Chung Pin and Lau Ping-kwan, were charged before Mr. Butters at the Kowloon Magistracy this morning with having assaulted a conductor of the Kowloon Motor Bus Co. last night in Prince Edward Road. The first and third defendants pleaded not guilty, but the second defendant admitted the charge.

The complainant, Chiu Wai, said that the three men and another man boarded his bus about midnight near the Po Hing theatre. They gave him the fare which was 40 cents and he gave them their tickets. At Prince Edward Road the second defendant produced a dollar and asked for small change. Witness refused to give small money, saying that it was against the regulations of the Company. The second defendant thereupon struck him on the face and the other two defendants also joined in the assault. Witness fell on the floor of the vehicle, bleeding from his nose.

When the bus was stopped, two defendants got down and ran towards the railway bridge but were arrested. A Police Sergeant arrested the second defendant near the bridge. When witness fell down he had his money bag containing \$22.90 strapped to his shoulder, and when the money was counted later \$14.50 was missing. Witness did not see any money on the floor of the bus.

Passenger's Evidence.

Mr. I. L. Goldenburg said that he was in the bus when an argument arose between the second and third defendants and the conductor. In the heat of the argument the second defendant struck the conductor, and the three other men joined in the fight. The conductor was knocked down, and when the bus was stopped two men ran away. Witness arrested the first and third defendants in the bus and gave them over to the other passengers' custody. Witness did not see any money lying on the floor. The two men who ran away were overtaken near the bridge, and one of them was arrested by a Police Sergeant.

A Chinese passenger also gave evidence. He, however, said that he did not see the first and third defendants strike the conductor.

Sergeant Whitcroft said that he arrested the second defendant in a match. The other man got away. All the defendants were searched at the station, but only \$4 was found on them.

The first and third defendants were fined \$8 each, and the second defendant \$20.

NEW QUARTERS FOR NO. 7 STATION.

CONVERSION OF THE OLD SAILORS' HOME.

After being completely renovated, the old Sailors' Home in Western Street has been converted into a Police Station, and is now housing the staff formerly occupying No. 7 Station which is at the foot of Pokfulam Road at its junction with Queen's Road.

The Sailors' Home, which stands in the same grounds as St. Peter's Church, is a three storied building and has been suitably adapted to house a large contingent of the Police Force who are required to do duty in the Western District. The charge room is on the ground floor, and its spaciousness makes it one of the best in the Colony. Quarters for Chinese members of the Force are also on the ground floor, while the Indians have been allotted the first floor, with the Europeans quartered on the top floor.

The officer in charge of the Station, Inspector W. R. McWalter, has his quarters in the small detached building which was formerly occupied by Capt. Bayless.

The old No. 7 Police Station has been turned over to the contingent of Russian Piracy Guards, who have come in the Colony from Shanghai.

The rainfall for the 24 hours ended to-day, as recorded at the Royal Observatory, was 3.01 inches. This makes the year's total 94.48 inches, against an average of 75.31.

CINEMA NOTES.

MARY NOLAN SOON IN "YOUNG DESIRE."

Mary Nolan, the screen's exotic beauty, comes to the Queen's Theatre on Tuesday, in "Young Desire," Universal's poignant dialogue drama of the struggle of a girl for her soul.

Miss Nolan, whose rapid rise to stardom has been one of the sensations of the motion picture world, appears in a role ideally suited to her talents. She plays the part of a dancing girl with a cheap carnival, who, imbued with a love for finer things, rises above her environment only to find the shadow of her past stretching across the road to happiness.

"Young Desire" is one of the most colourful pictures in which Miss Nolan has appeared. Many of the scenes are laid in the bizarre atmosphere of a carnival. An appealing romance runs through the picture, and the climax is a masterpiece of excitement and suspense.

The great strength of "Young Desire" lies in the exceptionally strong contrast of its lights and shadows. Its intense drama is worked out against a background of supposed frivolity, of dancing girls and tinsels. Its fateful words of love and self-sacrifice are spoken amid the shouts of concessionaries and the hoarse cries of barkers.

"The Mighty" A Real Thriller.

If any of you harbour the least doubt that Paramount's New Show World attractions don't live up to that slogan, attend the Central Theatre, this week and thrill to George Bancroft in the all-talking action hit, "The Mighty." Secondly, "The Mighty" possesses rare qualities, action and a logical story.

Bancroft is the post-war gunman who laughs at the law and throws a draft summons in the waste basket. Four M.P.'s put him in the army and overseas he goes as Private Greeson. His natural instinct for gunning finds him emerging from the war a full fledged major and a national hero. He is very impatient to get back to his old haunts. In a city where he stops to see the family of an over seas buddy, he is offered the position of commissioner of Public Safety and accepts, to further his own interests. Esther Ralston is the girl who knows his past, yet loves him. He soon rids the city of all gangsters and then assembles his own gang for a grand coup. The gang becomes restless and decides to go ahead without their chief. Then comes the most stirring bit of action of all. Bancroft at the head of over two score of mounted motorcycle officers to overtake a powerful gang of bank bandits.

"Hot For Paris."

Charles Judels, famed as a character actor on stage and screen, currently playing the role of Charlot Gouset in Raoul Walsh's latest Fox Movietone all talking picture hit, "Hot For Paris" comes of a family with a hobby of holding down jobs for long periods. The father of Judels was stage director of the Metropolitan Opera House in New York City for 35 years.

Judels himself was under continuous contract with the Shuberts for 20 years as actor and producer. "Hot For Paris" based on a story by Walsh, with dialogue by Billy K. Wells, features Victor McLaglen, Pifi Dorsey and El Brendel with Polly Moran and Judels, topping the supporting cast.

This swift moving and hilarious screen entertainment, one of the most sparkling that has come to the talking screen, is doing capacity business these days at the Queen's Theatre.

Song numbers written by Walter Donaldson and Edgar Leslie are sung during the action, with "Sweet Nothings of Love" and "If You Want to See Gay Paree" by Pifi Dorsey and "I'm The Duke of Kakiyak" by Victor McLaglen being outstanding.

CORRESPONDENCE.

An Aviation Query.

[To The Editor of Hongkong Telegraph.]

Sir,—I note that H.E. the Governor has appointed a Flying Officer to be Superintendent of the Civil Aerodrome at Hongkong. What exactly does this mean? What should the Government have the appointing of staff to a civil concern, and in this particular case does this mean the thin edge of the wedge for the formation of another Government Department for the supervision of Civil Aviation?—Yours, etc.,

LIBERAL-LABOUR CONFERENCES.

PROPOSALS SOON TO BE MADE PUBLIC.

London, Sept. 28.

Speaking at Exeter yesterday, Sir Herbert Samuel, one of the leaders of the Liberal Party, referred to the conferences between the Government and the Liberal Party on unemployment and schemes for stimulating trade.

Sir Herbert said the conferences had come to close quarters with many of the principal aspects of the problem. Nothing could be substituted for a general world revival of trade. That had been understood on all sides from the beginning, but there had been under discussion a large programme of immediately practicable measures.

It was not expected for him to anticipate any statement on the subject which the Government might make, but he had reason to believe that within a brief period the country would be informed of the nature of the proposals under discussion, and the Liberal Party would declare in due course the specific measures it desired to see adopted.—British Wireless.

MORE LIFE SAVING CERTIFICATES.

TWENTY CANDIDATES PASS EXAMINATION.

Candidates who have been undergoing training in life saving at the V.R.C. were examined yesterday morning by Mr. R. J. Hunt, the local examiner. The results shown were exceptionally creditable to Mr. James Stewart, who had put in so much hard work at the classes. The tests consisted of questions on the apparently drowned, etc., land drill and resuscitation and water drill. Twenty were examined and all passed, maintaining a high standard of efficiency. Mr. Stewart also qualified for the Hon. Instructor's certificate.

The successful candidates were:—C. E. Roza Pereira, J. A. Victor, S. V. Gittins, L. Roza Pereira, W. Lawrence, H. M. Remedios, M. M. Soares, D. V. Lopes, L. Soares, E. Roza, R. W. H. Maynard, J. V.R.C. NIGHT FETE.

TWO CHAMPIONSHIPS
DECIDED.

The swimming gala at the Victoria Recreation Club on Saturday night drew quite a large gathering in spite of the threatening weather conditions. Fortunately the rain, which was experienced in the afternoon, ceased in time for many enthusiasts to attend the fete, and except for a slight drizzle which fell for a few minutes nothing occurred to mar a fine evening's enjoyment.

Water Polo. Portugal swamped the weak England side by nine goals to nil in this event. At no stage of the game did the England side get going. The Portuguese goalies, Silva and the Portuguese goalie, Silva, were only called upon to save one or two weak shots. C. E. Roza Pereira accomplished the hat-trick in the second half of the game, when he scored in rapid succession the last three goals. He was altogether responsible for five of the nine goals scored. Lawrence scored three and L. Roza Pereira one. The teams were: Portugal—R. A. Silva-Netto, J. R. Soares, R. Gomes, H. M. Remedios, C. E. Roza Pereira, W. Lawrence and L. Roza Pereira.

England—W. Ribbards, R. W. Mitchell, J. Henry, E. W. Ralston (Capt.), W. C. Simpson, Lieut. Howard, and Early. Referee—Dr. D. Laing.

Results.

LOCAL FOOTBALL.

THE REST EASILY BEAT
CHAMPIONS.

A heavy ground following the rain made spectacular football impossible when Chinese Athletic met in eleven representing the Rest of the Hongkong Football League on Saturday. Players found the greasy ball difficult to deal with and the rather high scoring of nine to four in favour of the Rest was surprising. The Chinese missed many a favourable opportunity. Dickinson was the main scorer for the Rest, finding the net on five occasions.

At Kowloon the local club's two team met similar eleven from the Argylls. The senior game ended in the Argylls scoring four to one but the Kowloon seconds won two to one.

THE WONDER BOY.

DON BRADMAN LEAVES
ENGLAND.

London, Sept. 27. England to-day gave a farewell to Don Bradman, the wonder "boy" cricketer, who, with five other members of the team, left St. Pancras Station on the first stage of their homeward journey. The hundreds of well wishers included the Australian girl hockey players who have just arrived for a tour in England, who gave a chorus of co-oes.

Bradman, interviewed by *Reuter*, stated, "I will not say good-bye, but only au revoir, because I hope to see you in 1934 if my cricket is still good enough."—*Reuter*.

AN ISLAND EVENT.

CHEUNG CHAU SCHOOL
HOLDS ANNUAL SPORTS.

Despite the inclement weather which changed so suddenly in the afternoon, the schools and the Chinese community of Cheung Chau met on the Cheung Chau Football ground on Saturday, the occasion being the Cheung Chau School 38th Annual Athletic Sports Meeting.

Among those present on the sports ground were Mr. G. E. Wetton, Mr. Mackenzie, Mr. and Mrs. R. Shannon, the Heads of Kaitongs and practically all the masters, mistresses and parents of the local vernacular schools.

Mrs. G. P. de Martin, who was asked to distribute the prizes was anticipated to come accompanied by Mr. de Martin, the Director of Education, at 3.00 p.m. per the Cheung Chau Ferry "Sun Chau," bringing with them the Hongkong Government School teams to run the Invitation Team Race as was arranged, but it was much regretted that owing to the typhoon signal and bad weather, they were unable to do so, much to the disappointment of the spectators.

As there were no less than 36 events on the programme, the sports commenced at 11.00 a.m. In spite of the rain which made the ground so wet and sports almost impossible, all of the events were keenly contested.

Prior to the prize distribution before a large gathering, the Headmaster, Mr. Hon Kau-fung thanked the Kaitongs, the European and Chinese gentlemen for their munificent philanthropy in donating to the prize funds, Mr. Tsui Chun-po for his generosity in presenting a nice silver cup for the Inter School Team Race, the Man Chung Tobacco Co. for their kindness in entertaining the spectators with cigarettes and drinks respectively, the Sports committee, especially the masters of the local vernacular schools, for their kind co-operation, and entering spirit in making the day a success and Mrs. Shannon for her kindness in consenting to give away the prizes.

After the prize distribution, cheers were accorded to the visitors, the Headmaster and the school.

The Tell-Tale Scale.

Unless you are over normal, a decline in weight should always be taken as an indication of something wrong. In the hot weather, especially you should be weighed at intervals to see that your weight is being maintained. Persistent decreases must be taken seriously for they indicate that the blood-stream is losing its power of correcting the wear and tear of the tissues.

Neglect will assuredly lead to trouble, for once the blood gets into poor condition there are many disorders that can arise. Everything depends upon the healthy condition of the blood; and "nerves," indigestion, rheumatism and general debility, although widely different in symptoms, are all attributable to one central cause—poor blood.

Do not neglect the early warnings. If you start losing weight this hot season, commence taking Dr. Williams' Pink Pills at once. If you are attacked by enervation or are affected by the heat in any way, they will prove an ideal tonic of lasting benefit.

BOBBY JONES WINS
FINAL.AN UNPARALLELED RECORD
CREATED.

Ardmore, Penn., Sept. 27. The great day, the realization of Bobby Jones' ambition, was tempered by a chilly north-east wind, bringing out fur coats among the three thousand worshippers of the golf wizard, who was considered to have an easy task against the slim and bespectacled Homans, who was making his first appearance in the National Championship.

Jones won the first hole with a par four, but barely reached the green with his third stroke at the second hole, which was halved in six. With an iron to the green Jones became two up in par three at the third, and although he was hunkered here the next hole with a par five to make him three up.

The fifth and sixth were halved, and Jones was stymied at the seventh, which he lost. After the eighth was halved he regained his previous lead at the ninth, where Homans' shot went into the water. Jones turned three up.

The strokes for the first nine holes were as follows:

Jones: 4 6 3 5 5 4 5 4 3=39

Homans: 5 6 4 6 5 4 4 4 4=42

Jones' Accuracy.

Playing purely for accuracy Jones won the tenth and eleventh holes. He was driving frequently with his spoon. He holed from eight feet at the eleventh for a birdie three. The twelfth and thirteenth were halved, but Jones won the next three. At the fifteenth, after recovering from a veering drive and getting within six feet of the pin, he made a dare-devil one-handed putt for a birdie three, but at the seventeenth Homans' tee shot was seven feet from the pin and he holed out for a birdie two. Jones, taking four, was seven up. The eighteenth hole was halved.

After halving the next two holes, Jones became eight up at the 21st where he almost holed out from the bunker. He was nine up at the next where he drove into the rough but recovered for a par five. The next four holes were halved. Homans won the 27th, where his tee shot rested ten feet from the pin, while Jones went into the rough. At the next hole both were bunkered and halved it with sixes. Jones, who was downy eight, halved the next with four strokes each for the Championship.

The cards for the last eleven holes are given below, the strokes of the second nine (tenth to eighteenth) holes being omitted:

Jones: 4 5 3 5 4 5 4 4 6 4=48

Homans: 4 5 4 6 4 5 4 2 6 4=48

Bobby Jones thus created an unparalleled record in the history of golf by winning the American National Amateur Championship by beating Eugene Homans by eight up and seven to play. He now holds the British Open and Amateur Championships and the American Open and Amateur Championships.—*Reuter's American Service.*

The Garrison Schools Swimming Sports will be held in the V. R. C. Bath, on October 2nd, commencing at 2.30 p.m. Entries for the Old Scholars' Handicap should be sent to the Headmaster, Garden Road. Post entries will also be accepted.

Railway Occupation.

Peking, Sept. 28.
The second Manchurian army is now arriving. It consists of the second, fourth and twenty-fifth brigades, the majority of whom have hitherto been sent down the Tientsin-Pukow line to Tsangchow and intermediate points.

Yu Hsueh-chung, interviewed by a large party of Chinese Pressmen this morning, stated that the Manchurians would occupy the Peking-Suiyuan railway as far as the Nankow Pass, the Peking-Hankow railway as far as Tingchow, and the Tientsin-Pukow to Lienchingchen near the Shantung border.—*Reuter.*

Peking, Sept. 23.

The vernacular papers state that Chang Hsueh-liang will leave Mukden for Peking on October 1.—*Reuter.*

Nanking's War Plans.

Tientsin, Sept. 27.
Owing to the fact that numerous official questions are still being held in abeyance, the situation is still far from clear, and it is believed that Chiang Kai-shek's announcement that he will continue fighting until Yen Hsi-shan and Feng Yu-shiang are completely eliminated may have a serious repercussion in Manchurian circles, whose invasion of these districts would thereby largely be nullified.—*Reuter.*

Reports of Fighting.

Peking, Sept. 27.
It is learned that the bandits have captured Kingchow, Kienli, and Sinyankchow. The foreign authorities are without much independent information from Hsuan, but believe that Feng Yu-shiang is holding his own. They are receiving reports of the reverses of the Kuominchun with considerable reserve.

It is believed that the cutting of the railway at Sinyankchow may prove a significant feature of developments.

The Shansi forces, who have gone south from Shihchiachuang, are understood not to have gone further than Changteh. The vernacular papers state that an enlarged plenary meeting on September 25 decided to remove the Shanghai headquarters to Taiyuanfu.—*Reuter.*

Many Appointments.

Mukden, Sept. 27.
It is announced that 28 appointments have been made to high official posts in Chihli. They include Pao Yu-lin as Chief of Police at Peking and Chang Hsueh-ming, a brother of Marshal Chang Hsueh-liang, as Chief of Police at Tientsin.—*Reuter.*

Confirmation by Nanking.

Nanking, Sept. 27.
The National Government has issued a mandate confirming the Manchurian appointments of Yu

Hsueh-chung as garrison commander in the Peking and Tientsin area, and Wang Hsueh-chang as Chairman of the Hopei Provincial Government.—*Reuter.*

Tientsin Customs.

Tientsin, Sept. 27.
Interviewed at noon to-day Mr. T. Y. Koo, Deputy Commissioner of Customs stated that no news had yet been received from Mr. Lenox Simpson, whose interview with Marshal Chang Hsueh-liang was apparently of long duration.—*Reuter.*

Services Not Wanted.

Mukden, Sept. 27.
Mr. Lenox Simpson's appeals to Chang Hsueh-liang to continue his services as Customs Commissioner have been flatly refused.—*Reuter.*

Chinese Superintendent.

Tientsin, Sept. 28.
Mr. Lenox Simpson returned to-day but callers at his residence were informed that he was "out." In the meantime, according to Chinese sources, Han Lin-sun, brother of the Manchurian general Han Lin-chun has been appointed

WOULD BE ASSASSIN IMPRISONED.

ATTEMPT ON LIFE OF ITALIAN PRINCE.

Brussels, Sept. 27.
Fernando de Rosa, who attempted to assassinate the Italian Crown Prince here last year, has been sentenced to five years' imprisonment.—*Reuter.*

Whilst the Italian Crown Prince was proceeding to lay a wreath on the tomb of the Unknown Soldier last year, de Rosa, who had arrived from Milan forced his way through the crowd with a revolver in his hand. He aimed at the Crown Prince but a motor cycle policeman struck down his arm and the bullet struck the road.]

WILL OF JEWISH MILLIONAIRE.

REQUESTS BY LATE SIR MANASSEH MEYER.

SINGAPORE ESTATE.

The will of Sir Manasseh Meyer, of Singapore, who died on July 1, has been admitted to probate, which has been granted to his three sons, Isaac, Jacob and Reuben, as executors and trustees. After the death of several bequests and trusts, the residue of the estate is to be divided equally between Sir Manasseh's three sons.

One interesting clause in the will is: "Any child or grandchild of mine who ceases to profess the Jewish religion or intermarries with a Gentile, such child or grandchild shall, from the date that they cease to profess the Jewish religion or intermarry with a Gentile, be deprived and divested of all life interest or other interest under this my will and of any share in the corpus of my estate."

Apart from generous charitable bequests in Singapore and in Palestine, there are several interesting family bequests.

He directed that his synagogue in Oxley Rise and his Hebrew school in Penelope Street, which were vested in his sons as trustees, together with the six houses in front of the school, by way of endowment, shall be maintained until 21 years after the life of his last surviving son. He directed that if the income from the endowment or otherwise is insufficient for them to be kept and maintained substantially as in his (the testator's) life-time, including food for the pupils and salaries for the teachers, they should be maintained out of the income of certain property specified. Should that be insufficient he directed that they should be maintained out of the income of the residuary estate.

A Family Residence.

He directs that during the life of his children and the last survivor of them his house at 3, Oxley Rise and his house, Jeshurun, Tanjong Katong, with the furniture, fixtures and fittings, shall be maintained as a family residence for the occupation and use of his children and remoter issue and their families who desire to reside there.

His daughter Rachel should be permitted to reside at 3, Oxley Rise with her husband, or, if she did not wish to reside in the house, his trustees should, during her life, pay to her the sum of \$500 per month as an allowance for maintenance. Food and maintenance should be provided at the expense of the estate for all his children and grandchildren and their families, who should reside in either of the family residences. He directed his trustees to raise a fund out of the estate of \$100,000, to be called the Grandchildren's Fund, to be used for the maintenance and education and benefit during infancy for each grandchild being a child of any daughter of his. He gave power to invest the fund.

To his daughters Hannah and Rama he left a legacy of \$50,000 each. He left in trust for his daughter Mozelle \$100,000.

It has not yet been possible to ascertain the value of the estate of Sir Manasseh Meyer, who was reputed to be a millionaire in sterling several times over. Payment of estate duty has been postponed on the necessary security being given.

LARCENY FROM AIR FORCE MESS.

CHINESE WHO TOOK RAIN-COAT IS SENTENCED.

A Chinese pleaded not guilty before Mr. Butters at the Kowloon Magistracy this morning to a charge of larceny of a raincoat from the Flying Officers' Mess at Ma Tau Kok. A charge of trespass was also preferred against him, to which he pleaded guilty.

Flying Officer G. C. Somerlough identified the raincoat produced in court as his. He said he had left it in the hall of the mess.

Li Ping-chuen, the No. 1 "boy," said that about 10 p.m. on Thursday he was returning to the mess when he saw the defendant leaving with something under his arm. The defendant ran away on seeing him, and he gave chase and arrested the man near the slaughter house. The defendant had nothing on him when he was arrested.

Witness questioned the defendant, and was told that defendant had gone there to sleep. Witness handed over the defendant to a sergeant of the Air Force and returned to look for the thing which he had seen the defendant carrying. Near the Rope Works witness found the discarded raincoat.

Mr. F. G. Coppock, a Sergeant in the Air Force, also gave evidence.

LATEST KWANGSI VENTURE.

ANOTHER INVASION OF CHANGSHA.

NANNING DENIAL.

Wuchow, Sept. 24.

The Kwangsi insurgents are again invading Hunan, according to verified reports. Evidently their hope is to effect a junction with other insurgent forces, with another invasion of Changsha in view.

The Cantonese have withdrawn from the Fu (Cassia) River back to Wuchow, evidently intending to pursue the elusive Kwangsi troops.

According to credible rumours, Longchow is in the hands of Li Tsien-tin, an old campaigner and right-hand man of the former Governor, General Luk Wing-tung. His troops have occupied Mission buildings, having apparently first defeated the Yunnanese rearguard. —Our Own Correspondent.

A Nanning correspondent, writing under date of the 19th instant, categorically denies the Canton News Agency report of the 4th instant to the effect that Yunnanese troops have captured that city. He says: "There is not a word of truth to it. Nanning has not yet been taken or entered by the Yunnanese or Cantonese. It is still in the hands of the troops of Wong Shao-hung and Li Chang-yen. No attack has been made by the Yunnanese for more than one month. At that time, their attempt to enter the city was unsuccessful. At present, the Yunnanese are camped in villages only a few miles from Nanning. They are just waiting—perhaps for more Cantonese troops to arrive. It is expected that there will be another attempt made to enter the city in the near future."

LOCAL RESIDENTS HONOURED.

(Continued from Page 1.)

In public affairs, but it was largely for his services in other directions that this honour had been conferred upon him. His kindness to the soldiers and sailors who passed through Hongkong was proverbial, and it would be quite true to say that there were hundreds and thousands of Servicemen scattered throughout the Empire who looked back with feelings of gratitude and thankfulness to the kindness they had received from the hands of both Mr. and Mrs. Dyer.

Their Excellencies the General Officer Commanding and the Admiral were full of appreciation for the services rendered by Mr. Dyer on behalf of the Services.

Mrs. Morris' Work.

In expressing his pleasure in presenting Mrs. Morris with her decoration, His Excellency recalled that she joined the Education Department of Hongkong in 1906, and two years later was appointed acting head mistress of the Victoria British School, a position which she again held in 1927. After holding various posts, she was appointed as Senior Mistress at King's College, and he understood might have been appointed first Headmistress of another school, only, with wifely devotion, she decided to remain to assist her husband in his work at King's College. A great deal of her work there had been in post-graduate training of University graduates appointed to King's College, and there were many who had cause to feel thankful for what she had done for them.

Services on Rhine.

To Lieut. Stevens, Sir William said that the recipient joined the Somerset Light Infantry 25 years ago, and shortly afterwards was sent to India where he served for several years. Subsequently he served in the Great War, both in the Egyptian Expeditionary Forces and in France. He later served on various stations, and was appointed 1st Lieutenant, and whilst serving with the Army of Occupation on the Rhine, acted with the local rank of Captain. It was for his services in the evacuation of the Rhine, that this honour, which he richly deserved, had been conferred upon him.

OCCASIONAL RAIN.

The Royal Observatory reports that a weak anti-cyclone covers South Manchuria. The typhoon is filling up to the north-west of Hui-phong. The local forecast is: E. winds, moderate; cloudy, occasional rain.

Mr. Butters convicted the defendant on the charge of larceny and sentenced him to six weeks' imprisonment, but discharged him on the second count.

PUBLIC WORKS IN MANILA.

LOAN PROCEEDS ENABLE CONTINUATION.

P2,000,000 AS START.

Manila, Sept. 25.

Realization of the construction of fifteen important public works projects within this year was made possible yesterday when Mayor Thomas E. Earnshaw approved a resolution passed by the municipal board authorizing the floating of Pesos 2,000,000 in bond issue in the United States. This is part of the ten million-peso bond issue for the city which has been authorized by an act of the legislature.

Immediately upon approval of the resolution, Mayor Earnshaw notified the governor general, through the department of the interior, of his action so that the chief executive may inform the department of war to float Pesos 2,000,000 in bonds when the market is favourable.

Considerable delay on the part of the city officials in authorizing the floating of the bond issue was due to proposals made by the department of finance to have bonds issued in the Philippines. Shortly after announcement of the intention of the city officials to float the second release from the ten million-peso bond issue, the secretary of finance requested its postponement pending realization of his scheme to float the bond issue in the Philippines.

When this scheme was finally found impractical, further delay was experienced when the members of the municipal board and the mayor could not agree on the proposed public works projects to be constructed by the proceeds of the bonds issue. Several conferences were held between the city executive to smooth out the differences and come to an agreement.

In accordance with a final agreement reached upon, part of the Pesos 2,000,000 will be used to finance the construction of six bridges, including three bridges to span the Pasig River. The proposed concrete bridge to be constructed over the present site of the Puente Colgante will receive first consideration; it was reported. For this project Pesos 400,000 will be set aside.

It was also agreed upon that Pesos 240,000 will be used for beginning the construction of the Mendiola bridge and the widening of Ayala Bridge. Two bridges which will cost Pesos 30,000 will be constructed on Calle Soler and another concrete bridge on Calle Arlegui will be constructed for Pesos 15,000.

Probably the most important project in the list in the widening of Calle Dasmarias. For this project, Pesos 70,000 will be taken from the bond issue to be floated in the United States. Expropriation proceedings of the property affected by the widening of the street are under way.

TWO MOTORING FATALITIES.

COOLIE AND SMALL BOY LOSE LIVES.

Revenue Officer Pearce, who was driving a motor car in which Revenue Officer Grimmit was a passenger, was involved in a fatal accident near Tin Lok Lane on Saturday when the car knocked down two coolies.

From a report issued from Police Headquarters this morning, it appears that two coolies were carrying an iron girder at the time and were apparently crossing the road towards the Praya. Revenue Officer Pearce was overtaking a tramcar and his own vehicle appears to have struck the girder which the men were carrying. One of them fell with the girder on top of him, and later succumbed to his injuries, while the other received minor injuries as the girder fell.

The deceased has not been identified as yet.

Another fatal accident was reported from the Hungnam Police Station yesterday, when a small boy, who was playing in Bulkeley Street, was knocked down by a China Motor bus. The lad, Wong Nei-tai, was rushed to hospital, but died of his injuries at 9.45 p.m. four hours after admission.

London, Sept. 27.
The British cruiser Conquest, which broke adrift in the North Sea with six men on board while being towed north for breaking up, was picked up and taken to the Humber last night by the Hull tug Seaman, after drifting for several hours. —British Wireless.
